AMBER GLASS

Pour Out

The amber glass Pour Out bottles USP TYPE III are very well adapted for use in laboratories and sampling of compounds.

AMBER GLASS

Pour Out

USER FRIENDLY

- Neck designed for the best pouring.
- Single standard closure system from 15cc up to 1L2, simple to use.
- Their set-in lips are designed to be driplless, allowing precise control of content release.

TIGHTNESS

- GCMI/GPI standard 28/430 mm with black bakelite cap or white urea phenolic cap.
- Conical inner plug in polyethylene.

MATERIAL

- Made in UV resistant glass, USP Type III Soda Lime Amber. The UV Light Protection of this amber glass complies with the max not more than 10% Light transmission requirements of USP. Of course the glass is 100% recyclable.

NOTE

See also our 9M6® and System Plus® aluminum product ranges.

Note: user is responsible for the compatibility of its product with the Tournaire packaging system, see our general sales terms.

A FULL RANGE FROM 15 cc UP TO 1L2 WITH THE SAME CLOSURE

Capacity (cc)	Unit weight (g)	Quantity per box	Quantity per pallet
15	39	414	20 700
30	57	345	13 800
60	87	216	5 184
120	130	108	6 804
270	228	70	2 940
600	319	48	1 344
1 200	529	12	960

Closure	Material	Weight (g)	Quantity per box
White	Phenolic urea	6,5	2 000
Black	Bakelite	6,5	2 000

Indicative data - Total height and weight without closure.
